## Thanks to the innovative technique MLS®, the laser is indicated for the wellbeing and health of all companion animals.

Safe, non-invasive and painless, MLS® Laser Therapy is the result of 30 years of experience and innovation by ASAlaser. Thanks to the ASAveterinary division, the results obtained with such a technique for the humans are now also brought to the vet medicine.

MLS® Laser Therapy intervenes on the following conditions:

- ▶ Acute and chronic tendon lesions
- ▶ Bursitis
- ▶ Contusions, hematomas
- ▶ Degenerative articular pathologies
- ▶ Disc pathologies
- ▶ Gingivitis-Stomatitis
- ▶ Healing of surgical wounds
- ▶ Lick granulomas
- ▶ Muscular sprains and strains
- ▶ Musculo-skeletal trauma
- ▶ Osteoarthritis
- ▶ Perianal fistulae
- ▶ Superficial cutaneous lesions (wounds, ulcers, sores)

# Why choose MLS<sup>®</sup> Laser Therapy?

## For its advantages.

- ▶ Painless
- ▶ The animal easily bears it
- ▶ The owner can be present during the treatment
- ▶ Does not require shearing (unless specified by the Veterinary)
- ▶ Sedation is not required

## For its results.

- ▶ Synergy and strengthening of the anti-inflammatory, analgesic, anti-edema effects
- ▶ Rapid reduction of pain
- ▶ Rapid healing of superficial lesions (wounds, sores)
- ▶ Rapid recovery of the structural integrity of damaged tissue
- ▶ Improvement of local blood circulation

## Because it improves the quality of life for both the animal and its owner.

When your animal has a problem, also your relationship and your daily life is affected: the pain in seeing it suffer, but also the inconveniences which inevitably arises in having to deal with it when it does not feel well. MLS<sup>®</sup> Laser Therapy improves the quality of your life together, intervening rapidly on the problem thanks to short treatments with courses lasting few sessions.

**MLS<sup>®</sup> can be used on dogs, cats, equine and exotic animals. Just have a look at the clinical cases:**
