

Thanks

to MLS® Laser Therapy

A S A L A S E R
V E T E R I N A R Y

Thanks to the innovative technique MLS®, Laser Therapy intervenes on the following conditions:

- ▶ Acute and chronic tendon lesions
- ▶ Bursitis
- ▶ Contusions, hematomas
- ▶ Degenerative articular pathologies
- ▶ Disc pathologies
- ▶ Gingivitis-Stomatitis
- ▶ Healing of surgical wounds
- ▶ Lick granulomas
- ▶ Muscular sprains and strains
- ▶ Musculo-skeletal trauma
- ▶ Osteoarthritis
- ▶ Perianal fistulae
- ▶ Superficial cutaneous lesions (wounds, ulcers, sores)

MLS® Laser Therapy can be used on dogs, cats, equine and exotic animals.

For its advantages:

- 1 Painless
- 2 Sedation is not required
- 3 Does not require shearing (unless specified by the Veterinary)
- 4 The owner can be present during the treatment
- 5 Short treatment length and fewer treatments required

For these results:

- 1 Synergy and strengthening of the anti-inflammatory, analgesic, anti-edema effects
- 2 Rapid reduction of pain
- 3 Rapid healing of superficial lesions (wounds, sores)
- 4 Rapid recovery of the structural integrity of damaged tissue
- 5 Improvement of local blood circulation

Because it improves the quality of life for both the animal and its owner. Talk to your veterinary.
