

SCIENTIFIC PROGRAMME!

Current, practical, scientific information that can be applied immediately by practitioners!

The SEVC Scientific Programme is aimed at all European veterinarians, particularly small animal and companion animal practitioners.

The SEVC's mission is to present the latest advances in animal care to the veterinary community in a professional, but fun, environment, offering more than 200 lectures by more than 100 world wide experts.

Lecture colour code:

Lectures presented in English	Lectures presented in Spanish
"How I Treat" Lecture	"State of the Art" Lecture
NAVC Speaker	Speaker Country of Origin

Thursday, 18 October 2012

	SURGERY	IMAGING	DERMATOLOGY*	MEDICINE	NEUROLOGY	BEHAVIOUR	PRACTICE MANAGEMENT	OPHTHALMOLOGY
15.00 - 15.55	What's new in surgery of the ear? Dr. D. Brockman	Radiology of the thorax: what can we expect! Dr. R. Hagen	Pemphigus complex diseases Dr. S. White	The link between inflammation and haemostasis Dr. B. Wiinberg	Ataxia – How to recognise and approach it! Dr. R. Da Costa	Compulsive behaviours and stereotypes – What's the difference and does it matter? Dr. D. Mills	Staff meeting: how to make it focused, fast and enjoyable Dr. M. Diaz	Corneal physiology: keys for clinical decisions Dr. T. Peña
16.00 - 16.55	Portosystemic shunts in cats – How do they differ? Dr. D. Brockman	Ultrasound of non cardiac thoracic structures – A cool tool. Dr. P. R. Kircher	Lupus in the dog Dr. S. White	Haemostatic abnormalities in dogs with immune mediated haemolytic anemia Dr. B. Wiinberg	Rational approach and differential diagnosis of spinal diseases in dogs Dr. R. Da Costa	Differential and differentiating repetitive behaviour problems Dr. D. Mills	Personal interview: how to conduct a sincere and effective face-to-face interview with your staff Dr. M. Diaz	Non ulcerative keratitis in small animals Dr. K. Heinrich
17.00 - 17.30	ANAESTHESIA		<i>Coffee Break</i>					
17.30 - 18.25	Thoracic surgery for the practitioner Dr. G. Ellison	CT of the lungs – Will CT replace radiography? An interactive lecture Dr. P. R. Kircher and Dr. R. Hagen	Partial intravenous anaesthesia Dr. L. Leece	Nuts and bolts of azotemia Dr. G. Grauer	Wobbler syndrome – Update on diagnosis and treatment Dr. R. Da Costa	Differential treatments for different repetitive behaviour problems Dr. D. Mills	How to help staff develop their own initiatives, in line with business policies, rather than just following orders Dr. L. Carretero	Ulcerative keratitis in small animals Dr. T. Peña
18.30 - 19.25	Chylothorax Dr. G. Ellison		Total intravenous anaesthesia Dr. D. Flaherty	Nuts and bolts of proteinuria Dr. G. Grauer	Cats are cats! Differences between canine and feline neurology Dr. R. Da Costa	Compulsive behaviours and organic problems Dr. T. Camps	Human resources for big teams Dr. L. Carretero	How to perform high standard eyelid surgery in small animals Dr. K. Heinrich

*Room with simultaneous translation to Polish, Russian and German.

This is a Preliminary Programme subject to change. The official languages at the SEVC are English and Spanish. Simultaneous translation will be provided.

	SMALL ANIMAL MEDICINE*	FELINE MEDICINE	OTHER COMPANION ANIMALS	PRACTICE MANAGEMENT		DERMATOLOGY	ORTHOPAEDICS
8.30 - 9.25	Insulin choices for the diabetic: which insulin preparation works best? Dr. M. Peterson	Feline gingivostomatitis – what's new Dr. C. Harvey	Proventriculus dilatation disease (PDD), bornavirus and gangliosides. Where are we? Dr. T. Tully	Financial tools S. McVey	8.30 - 9.25	Diseases of the dermo-epidermal junction Dr. S. White	Extraarticular cruciate repair procedures Dr. P. Boettcher
9.30 - 10.25	Pitfalls in the diagnosis of canine hypothyroidism Dr. M. Peterson	Diagnosis and management of feline vestibular disease Dr. E. Beltran	Local anesthesia in companion birds Dr. T. Tully	Creating incentive based compensation programs S. McVey	9.30 - 9.55	Dermatophytosis Dr. S. Bettenay	Meniscal injury Dr. P. Boettcher
10.30 - 10.55	Disseminated intravascular coagulation Dr. B. Wiinberg	Diagnosis and management of feline diabetes mellitus (Part I) Dr. C. Reusch	Anaesthesia in very small and very large reptiles Dr. S. Divers		10.30 - 10.55	<i>Coffee Break</i>	
11.00 - 11.55	<i>Coffee Break</i>				11.00 - 11.55	Diagnostic approach to nasal dermatosis Dr. L. Ordeix	Kinematics of the operated stifle: what did we learn from fluoroscopic gait analysis? Dr. P. Boettcher
12.00 - 12.55	Practical transfusion medicine Dr. B. Wiinberg	Diagnosis and management of feline diabetes mellitus (Part II) Dr. C. Reusch	Renal diseases in reptiles (anatomy, physiology, diagnosis and treatment) Dr. S. Divers	How to tell if you have a toxic team and clean-up S. McVey	12.00 - 12.55	Guidelines of antibacterial drugs on dermatology Dr. L. Ordeix	Canine cruciate disease: what's new for prevention and treatment? Dr. M. Conzemius
13.00 - 13.55	Thromboembolism in the dog: more common than we think Dr. B. Wiinberg	Diagnostic approach to the cat with chronic diarrhoea Dr. A. German	Basic veterinary care of tortoises Dr. S. Divers	Marketing 202 S. McVey	13.00 - 14.25	<i>Lunch</i>	
14.00 - 15.25	<i>Lunch</i>		DENTISTRY		14.30 - 15.25	Cats are not small dogs: the dermatologist's perspective Dr. S. Bettenay	Pain assessment in dogs and cats Dr. D. Flaherty
15.30 - 16.25	Use of NSAIDs in dogs with liver and kidney disease Dr. G. Grauer	Management of the cat with chronic diarrhoea Dr. A. German	Periodontal Disease: how it develops, why it is important and how to prevent or treat it Dr. C. Harvey	Creating a great practice team Dr. C. Back	15.30 - 16.25	Diseases of the German Shepherd Dr. S. Bettenay	Central sensitization: clinical implications Dr. L. Leece
16.30 - 17.25	Diagnosis and treatment of platelet hyperactivity Dr. B. Wiinberg	Diagnosis and management of the cat with spinal disease Dr. E. Beltran	Use of antibiotic and anti-inflammatory drugs as part of treatment of patients with oral disease Dr. C. Harvey	Motivation and the power of feedback Dr. C. Back	16.30 - 17.25	<i>Coffee Break</i>	
17.30 - 18.25	<i>Coffee Break</i>				17.30 - 18.25	New therapeutical options for skin tumours Dr. J. Pastor	Improving surgical analgesia: how I use CRIs Dr. L. Leece
18.30 - 18.55	Hypercoagulability in immune mediated haemolytic anemia Dr. B. Wiinberg	Diabetic ketoacidosis Dr. C. Reusch	Oronasal fistulas & palate defects Dr. C. Harvey	Achieving excellence in pet care with your team Dr. C. Back	18.30 - 18.55	Dry seborrhea Dr. S. Bettenay	Uncontrollable post-operative pain Dr. D. Flaherty

	SMALL ANIMAL MEDICINE*	OTHER COMPANION ANIMALS	EMERGENCY CRITICAL CARE	PRACTICE MANAGEMENT		SURGERY	ORTHOPAEDICS
8.30 - 9.25	Game changers or hype? Five new cancer treatments reviewed Dr. C. Henry	Haematuria in rabbits Dr. J. Martorell	Approach to the acute abdomen Dr. M. Daza	Real solutions for real managers Dr. B. Conrad	8.30 - 9.25	Intestinal surgery in cats. How does it differ? Dr. G. Ellison	Diagnosis of elbow dysplasia Dr. P. Lafuente
9.30 - 10.25	Canine bladder cancer – old options with a new twist Dr. C. Henry	Clinical pathology in rabbits – How to interpret an analysis Dr. J. Martorell	GI protection with NSAID or glucocorticoids Dr. T. Civco	Why are you surprised when the hire doesn't work out? Dr. B. Conrad	9.30 - 9.55	Oral cancers in cats Dr. N. Bacon	Radio-ulnar incongruency Dr. P. Boettcher
10.30 - 10.55	Digital masses in cats Dr. C. Henry	Atherosclerosis in parrots Dr. T. Tully	Imaging the acute Abdomen (radiology, ultrasound, AFAST) Dr. F. Roux		10.30 - 10.55	<i>Coffee Break</i>	
11.00 - 11.55	CARDIOLOGY	<i>Coffee Break</i>			11.00 - 11.55	Intestinal perforation – diagnosis and treatment Dr. D. Brockman	Comparative data for treatment of canine elbow dysplasia Dr. M. Conzemius
12.00 - 12.55	Tissue doppler echocardiography in cats: clinical applications Dr. C. Carlos Sampedrano	Avian behavior presentations – considerations regarding treatment options Dr. T. Tully	Diabetic ketoacidosis: what differs between dogs and cats Dr. T. Civco	Strategies that work for amazing product sales Dr. B. Conrad	12.00 - 12.55	Surgical management of gastric dilation volvulus – what's new Dr. D. Brockman	Controversies about treatment of elbow osteoarthritis Dr. M. Conzemius
13.00 - 13.55	Systemic hypertension and hypertensive cardiomyopathy in dogs and cats Dr. C. Carlos Sampedrano	Ferret coronavirus: current status Dr. J. Martorell	Canine pancreatitis Dr. T. Civco	Failure: dealing with it, learning from it, and not freaking out Dr. B. Conrad	13.00 - 14.30	<i>Lunch</i>	
14.00 - 15.25	SMALL ANIMAL MEDICINE	<i>Lunch</i>			14.30 - 15.25	Injection site sarcomas in cats Dr. N. Bacon	Canine stem cells: is the potential real? Dr. M. Conzemius
15.30 - 16.25	Diabetes insipidus and causes of polydipsia and polyuria: my approach to diagnosis and treatment Dr. M. Peterson	Tromboelastography in birds. What can we do to assess avian coagulation Dr. T. Tully	Nosocomial diseases in emergency and critical care. Emerging antimicrobial resistance Dr. F. Roux	Measuring success in veterinary clinics. Some metrics for clinics to consider measuring if they want to get better results Dr. A. Lambert	15.30 - 16.25	Resection and reconstructive techniques for soft tissue sarcomas in dogs Dr. N. Bacon	Osteoarthritis: evidence-based management Dr. J. Innes
16.30 - 17.25		Coagulation problems in ferrets Dr. A. Montesinos	Is a successful outcome possible in septic shock? Dr. F. Roux	Effective use of digital marketing in vet practice Dr. A. Lambert	16.30 - 17.25	<i>Coffee Break</i>	
17.30 - 18.25	<i>Coffee Break</i>			17.30 - 18.25	Bladder tumors in cats and dogs Dr. N. Bacon	Fractures of the elbow Dr. P. Lafuente	
18.30 - 18.55	Cats with idiopathic hypercalcaemia Dr. M. Peterson	Lymphoma in ferrets Dr. J. Martorell	Gastric dilatation volvulus Dr. F. Roux	Consulting room protocol that gets results Dr. A. Lambert	18.30 - 18.55	Salivary mucoceles Dr. G. Ellison	Elbow luxations Dr. P. Lafuente
19.00 - 19.55	Staying abreast of mammary cancer treatment options Dr. C. Henry	Emergencies in cardiology. What ultrasounds offer us? Dr. C. Carlos Sampedrano
